NEOSHO Nurseries Co.

NEOSHO, MISSOURI

All-America
Award Winning
COLLECTION

Cat. No. 810

To make it easy for you
to have all three of the 1955
All-America Award winners
we are combining them in
this one collection.

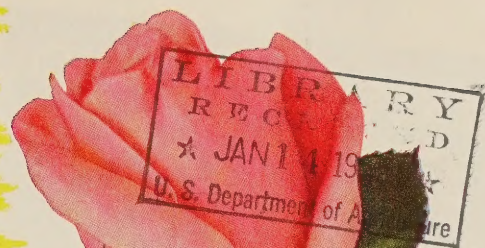

All 3 for **\$7.50**
A SAVING OF \$1.00

Queen Elizabeth

107—(Pat. App'd For). The first of a new class "Grandiflora" named for its abundance of flowers combined with the magnificent qualities of the Hybrid Tea. Blossoms are a breath-taking blending of soft carmine-rose and dawn-pink. Foliage deep glossy green, with almost thornless stems. Very fragrant and an abundant bloomer. 1955 All-America Award Winner. Each \$3.00; 3 for \$7.95.

Jiminy Cricket

182—(Pat. App'd For). A new Floribunda with masses of tangerine-red buds which open to sharp coral-orange or vermilion and finish a pink-coral. Grows freely and is covered with glossy green foliage. Each \$2.50; 3 for \$6.60; 6 for \$13.20.

Queen Elizabeth

Tiffany

102—(Pat. App'd For). 1955 All-America Award Winner. Extremely large blooms and vigorous grower. Long, pointed buds, golden yellow at base, shading to deep pink. Flowers open to perfectly formed, double, high-centered blooms with petals of heavy texture and long lasting qualities. Each \$3.00; 3 for \$7.95.

FREE GIFT for YOU!

In appreciation of your nice order we will include a free gift AT YOUR REQUEST. We will select the variety and you may state your preference of one of the following.

Fruit Tree
Shrub

Perennial
Medium Grade Rose

Because of shipping charges the complimentary plant must be requested on the order and cannot be sent later.

HOW TO ORDER

All orders are F.O.B. Neosho unless otherwise specified. Terms are cash in full with order. If C.O.D. shipment is desired, the order must be accompanied with a 10% deposit. On all orders for less than \$10.00 full cash should accompany order.

Order by catalog number, but write in variety also.

PARCEL POST SHIPMENTS

Add 15% to cover postage on all orders. Items measuring more than 100 inches in length and girth combined must be shipped express or freight and will come collect for the transportation. In this case we will apply the 15% transportation remittance against this charge.

MINIMUM ORDER

Because of increased handling costs we are unable to handle orders for less than \$2.50.

Neosho

NURSERIES COMPANY

OWNING AND OPERATING OVER FIVE HUNDRED ACRES

NEOSHO-MISSOURI

PHONE NE1

Friends and Customers:

Here is our finest catalog, where you will find almost every plant we produce beautifully illustrated in full color. You can see exactly what you are ordering.

But far more important, the nursery stock listed is the best that can be grown anywhere. We maintain 500 acres of rich Hagerstown silt loam at high fertility, insuring well shaped, hardy plants with a wonderful root system. In fact, many nurserymen can recognize our plants by looking at the wonderfully developed roots.

Ten thousand floribunda roses are grown each year at Neosho Nurseries farms, so that we can fill fall and early spring orders with satisfaction. Because hybrid tea roses can be produced more satisfactorily in California, we produce there forty thousand plants each year and are able to guarantee for you growing satisfaction in your rose garden.

Remember too, that for gardening success, proper cultivation, fertilizing, etc., are quite important. Among the gardening aids listed on page 32 we particularly recommend Ra-Pid-Gro fertilizer.

Your satisfaction is our greatest aim and we take pride in the personal interest we are able to devote to your order.

When at any time you are in the vicinity of Neosho, please stop in and visit with us.

Yours for Growing Satisfaction,

Joseph B. Weston
President and General Manager

P.S.-We didn't have space for pictures of Nocturne and Symphonie roses. See the listing on page 6.

NEOSHO GUARANTEE

- Without any qualification, we guarantee you true-to-name stock. If any proves otherwise, we will replace it immediately without charge, or refund the purchase price.
- We guarantee the highest quality and we guarantee that your order will arrive in good condition. We only request that you examine the shipment carefully on arrival and if you have any complaints let us know within 10 days. If there is a complaint it will be cheerfully adjusted to your satisfaction and we will either refund the purchase price or replace the stock as you prefer.
- If any stock that reached you in good condition fails to grow, even though we have no responsibility for this failure, we will share your loss. We will replace any such stock that fails to grow at ONE-HALF price, if you report this by July 1st following planting.

STATE INSPECTED STOCK

All stock is thoroughly inspected by an authorized State Inspector to guarantee freedom from disease.

Eclipse

**PEACE
SPECIAL**

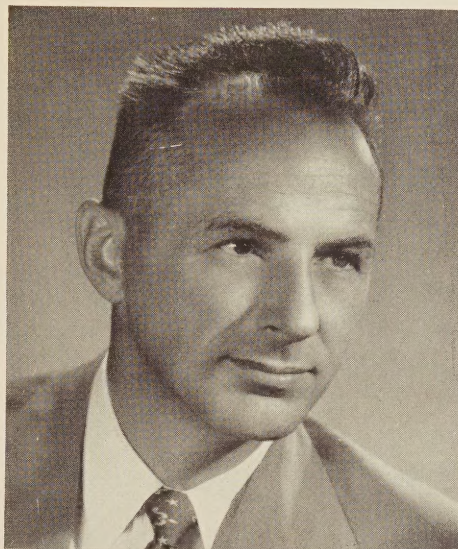

No. 811
1 of each
variety shown
\$7.75

President
Eisenhower

105—PRESIDENT EISENHOWER. (Pat. No. 1217). Outstanding variety of rich, medium red color. Extra large blooms, very double, with strong old-rose fragrance. A vigorous grower with few thorns. **Each \$2.50; 3 for \$6.60.**

Spring Shipment Only
on Roses

133—ECLIPSE. Slender, urn-shaped buds over 2 inches long, of deep gold. Long stems and spicy fragrance. A good bloomer. **Each \$1.25; 3 for \$3.50; 6 for \$6.75.**

JOSEPH B. WESTON
President and General Manager

Joe Weston, our General Manager, is our Rose specialist, handling hundreds and thousands every year. He sees them in the field as we are raising them, and also how they perform for you in your garden. The four Roses offered on this page are Joe's personal choice of four of the finest patented Roses which he can recommend to you without question.

106—HELEN TRAUBEL. (Pat. No. 1028). Lovely pink shades from carnation to apricot in almost every petal. Long buds, open into blooms up to 6 inches across. Delicate fragrance; resists shattering on bush or after cutting. 42 to 56 petals. **Each \$2.50; 3 for \$6.60.**

104—PEACE. (Pat. No. 591). The most talked about Rose today. It is fresh looking from bud to petal fall, yet constantly changing. Bud is golden opening to lemon-yellow edged with pink. Very double and exceptionally large, 5 1/2 to 6 inches, long lasting and quite vigorous. **Each \$2.50; 3 for \$6.60.**

Plant ROSES in March-April

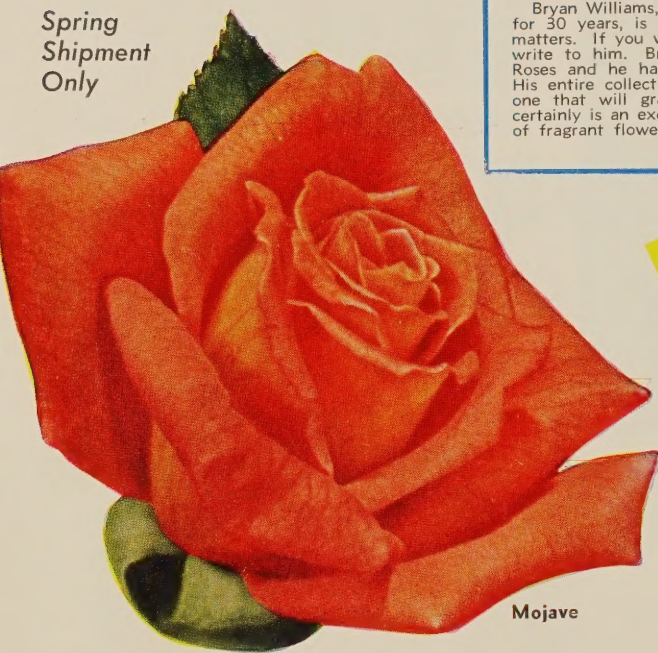

Lowell
Thomas

109 — LOWELL THOMAS

(Pat. No. 595). Large clear yellow with slight Tea fragrance. Holds color unusually well and is called "easiest of all yellows to grow." **Each \$2.00; 3 for \$5.25; 6 for \$10.50.**

Spring
Shipment
Only

Mojave

138—MOJAVE (Pat. No. 1176). Winner for 1953-1954. Radiant orange with flame-like tones of scarlet and vermilion. Long tapered buds on long stems will make this one a favorite for cutting. Plants are vigorous with glossy foliage. Perhaps the finest orange Rose yet produced and sure to become extremely popular. **Each \$2.75; 3 for \$7.20.**

G. B. WILLIAMS
Vice-President-Treasurer

Bryan Williams, our Secretary-Treasurer for 30 years, is our expert on financial matters. If you want to order on credit, write to him. Bryan also is a lover of Roses and he has a collection to offer. His entire collection is indeed a colorful one that will grace anyone's yard, and certainly is an excellent one for bouquets of fragrant flowers in your home.

HURLEY KRITZ
Superintendent in Charge of Filling and
Packing All Orders

Hurley has been with our company for thirty years and has a great responsibility in the storage of several hundred thousand trees and plants. These must all be kept in prime growing condition, and packed upon shipment so as to reach you ready to start growth. Says Hurley about Roses: "They are the most beautiful flower of all our plants, are the finest that can be grown. Of the many thousand varieties I would like to send you these four."

114—GOLDEN SCEPTER. (Pat. No. 910). One of the loveliest yellows—a clear gold. Like all yellows, needs water in hot weather; resists fungus well; resists insect damage. Quite heavy bloomer, once every three to four weeks up to frost. Bush runs 24 to 30 inches high. Flowers medium sized, tight, double, high centered, 36 to 48 petals. Each \$2.00; 3 for \$5.25; 6 for \$10.50.

Rex
Anderson

108—REX ANDERSON. (Pat. No. 335). One of the most popular whites, it is a free bloomer with beautifully formed buds and double blossoms with shadings of yellow and gold at the base of ivory-white petals. Will produce enormous flowers if some of the buds are removed. Each \$1.75; 3 for \$4.65; 6 for \$9.30.

112—SHOW GIRL. (Pat. No. 646). One of the very best pink Roses, noted for its long, pointed, perfect buds of deep pink. Large, semi-double, fragrant blossoms. Its long stems make it one of the best for cutting. Each \$2.00; 3 for \$5.25; 6 for \$10.50.

Show Girl

1 Crimson Glory 1 Charlotte
1 Sutter's Gold 1 Armstrong
1 Happiness

All 4 for \$6.90

100—HAPPINESS. (Pat. No. 911). Its clear flame-red glow looks as happy as its name. Long, pointed buds on long stems open out slowly; in full bloom often measure over 5 inches across. Very heat-resistant, non-fading. Long lasting on the bush; lasts 2 or 3 days as cut flowers. Each \$2.00; 3 for \$5.25; 6 for \$10.50.

VAUGHN WOODARD, JR. (Woody)
Superintendent Shipping Dept.

Woody has been with us since leaving the Air Force after World War II. It is his responsibility to see that thousands of orders are shipped out at the proper time and that our good friends who drive in for their plants are promptly waited upon. Feel free to address your letters to him or ask him in person.

His candidates for All-America honors are listed on this page. You may order individually, but he suggests you take advantage of this money saving offer.

101—CHARLOTTE ARMSTRONG. (Pat. No. 455). A fragrant favorite. Its long blood-red buds surprise you by opening out into blooms ranging from cerise to deep pink with orchid overtones. Medium heavy bloomer every month, May through September. A wonderful cutting Rose. Each \$2.25; 3 for \$6.00; 6 for \$12.00.

111—NOCTURNE. (Pat. No. 713). A good performer in all climates, the velvety blossoms of Nocturne are outstanding. Large blossoms are borne in profusion along with long, pointed buds of cardinal-red and darker shadings. Delightfully fragrant, vigorous, and with long cutting stems. Each \$2.00; 3 for \$5.25; 6 for \$10.50.

170—SYMPHONIE. (Pat. No. 958). Rich carmine-rose and pink with undertones of silver. Truly a symphony in color. Huge, high-centered blooms with wavy silken petals with strong Tea fragrance. Each \$2.00; 3 for \$5.25; 6 for \$10.50.

103—SUTTER'S GOLD. (Pat. No. 885). Constant bloomer, with true golden yellow petals veined with copper. An excellent cutting Rose; lasts four days or more in the vase. Strong insect resistance; keep well sprayed against fungus. Each \$2.25; 3 for \$6.00; 6 for \$12.00.

THE RADIANCE FAMILY

The most widely planted of the Hybrid Teas. Adapted to all localities, the Radiance continue to produce an abundance of fragrant flowers everywhere. They are vigorous and will continue to bloom in the hottest weather with the least care.

127—PINK RADIANCE. A brilliant carmine-pink with cameo-pink shadings. Bud globular, flower large, double, and intensely fragrant.

128—RED RADIANCE. Sport of Pink Radiance with all its good points, but a bright cerise-red.

124—MRS. CHAS. BELL. Another Radiance variety that is a shell-pink shaded with soft salmon.

Poinsettia

McGredy's Yellow

POPULAR

131—EDITOR McFARLAND. A bright glowing pink with well formed buds and long lasting blooms. A vigorous bloomer, good for cutting.

126—POINSETTIA. The exciting color of Poinsettias gives this Rose a lasting brilliance. Beautiful, long, pointed buds, large, double flowers produced in abundance. Vigorous.

119—ETOILE DE HOLLANDE. The perfect buds produced on upright stems make this the standard for judging red Roses. The bright red color is unfading. Hardy and excellent for cutting. Long-time favorite.

121—McGREDY'S IVORY. Long, pointed buds with large, double flowers of creamy white. Very fragrant. Considered one of the best white Roses.

122—McGREDY'S YELLOW. Slightly fragrant, buttercup-yellow with long, pointed buds and large double flowers slightly lighter in color. It is a good grower and free bloomer, making it one of the better yellows.

**134—COUNTESS VANDAL (Com-
tesse Vandal).** (Pat. No. 38 Ex-
pired). Long, tapered, coppery
buds opening into high-centered,
double blooms, salmon-pink inside
and coppery pink outside. Very
fragrant and produced on good
stems for cutting.

118—SNOWBIRD. Will outbloom
any white Rose. Medium sized
with flaring white buds and
snowy, many-petaled, high-cen-
tered flowers.

125—PRESIDENT HOOVER. This long-time favorite is one of our most
beautiful Roses. Long, pointed buds opening into double flowers of vary-
ing shades of orange, yellow, and red. Vigorous and a heavy bloomer.
Long stems.

130—THE DOCTOR. One of the
best pink Roses of all time. Well
formed buds develop into enor-
mous satiny pink blooms up to six
inches across. It is very fragrant
and the sparkling texture of the
petals is long remembered. Be
sure to plant this one.

123—CHRISTOPHER STONE. Bril-
liant scarlet-crimson with large
clusters of golden stamens. Long,
pointed buds and large, double
flowers that do not blue. Unusu-
ally fragrant and heavy bloomer.
One of the best bright red Roses.

117—DUQUESA DE PENARANDA.
Very large, fragrant flowers of
orange and apricot shaded with
copper. The color is exceptionally
bright in contrast with other
Roses. A strong grower with shiny
light green foliage.

Fashion

149—FASHION.
(Pat. No. 789). Considered the finest Floribunda yet introduced. Buds are an Oriental red opening to a sparkling coral-pink, sometimes shaded with gold. The last stages have a reddish tinge. The blooms are unfading and the great profusion from spring to fall assures you constant color. A bed in front of a picture window is ideal. Each \$2.00; 3 for \$5.25; 12 for \$21.00.

est Floribunda yet introduced. Buds are an Oriental red opening to a sparkling coral-pink, sometimes shaded with gold. The last stages have a reddish tinge. The blooms are unfading and the great profusion from spring to fall assures you constant color. A bed in front of a picture window is ideal. Each \$2.00; 3 for \$5.25; 12 for \$21.00.

Irene of Denmark

153—LILIBET. (Pat. No. 1209). This low growing Floribunda captured the All-America award for its class in 1953-1954. Each little bud is perfect, with a captivating rose-pink to dawn-pink color and spicy fragrance. Resistant to disease. Excellent for corsages and arrangements. Each \$2.00; 3 for \$5.25; 12 for \$21.00.

176—IRENE OF DENMARK. (Pat. No. 889). Sweetheart type buds. Open blooms are large, double and frosty white. Vigorous and bushy to 2 1/2 feet. Small, neat foliage. Each \$1.75; 3 for \$4.65; 12 for \$18.60.

137—VALENTINE. (Pat. No. 1029). A free flowering Floribunda with intense bright red flowers from spring to fall. It grows low and compact, making an ideal border or hedge. Blooms in clusters and holds color. Each \$1.75; 3 for \$4.65; 12 for \$18.60.

A Border Planting of Valentine

Carrousel

139—CARROUSEL. (Pat. No. 1066). A new strain between Hybrid Tea and Floribunda, with large, double, deep rich red flowers, both in clusters and single blooms. Prolific bloomer on tall growing plant with glossy, mildew-free foliage. Each \$2.00; 3 for \$5.25; 12 for \$21.00.

148—RED PINOCCHIO. (Pat. No. 812). Clusters of large, double, velvety red blooms that are unusually long lasting on the bush or after cutting. Continuous bloom and fragrance add to its value. Each \$1.50; 3 for \$3.90; 12 for \$15.60.

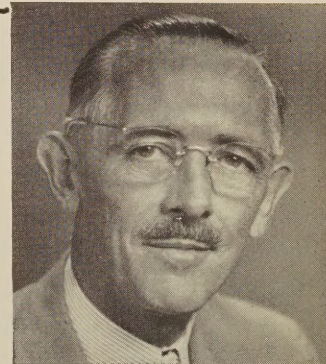

**FASHION

We offer Mr. Woodard's selection of four of the finest.

1 Fashion
1 Carrousel
1 Irene of Denmark
1 Valentine
All for \$6.60

Vaughn Woodard, our Landscape Architect, has been beautifying the finest homes in this area for 30 years. His ability and taste have been recognized nationally since he is a past Director of the Landscape Nurserymen's Association, and won first prize in a national contest for the best landscape plan submitted from the Middle West.

Floribunda Roses, in his opinion, have done more to put color into the landscaping of the home than all else combined during the past 20 years and are the most popular Rose in America today. Fool proof, colorful, hardy, and continuously in bloom from spring to fall under all climatic conditions. Many varieties have from 200 to 800 blooms per season. Ideal for hedges, foundations or mass plantings.

Thousands of
Blossoms —
Hardy as Oaks!

181—KATHY FISCUS. (Pat. No. 967). Clusters of silvery pink, double flowers in great abundance and borne continuously on a bushy, glossy leaf plant make this an outstanding soft pink Floribunda. **Each \$1.75; 3 for \$4.65; 12 for \$18.60.**

151—VOGUE. (Pat. No. 926). A bright cherry-coral Floribunda with perfect high-centered flowers 3 to 4 inches across. They are borne in clusters and react well to cutting. Plant with Fashion for a rich colorful combination. **Each \$2.00; 3 for \$5.25; 12 for \$21.00.**

174—COCORICO. (Pat. No. 1193). A gay, sassy color—orange-red—2½- to 3-inch flowers with 5 to 9 velvety petals. Blooms continuously in open, well formed clusters. Bushy plant of medium height. **Each \$2.00; 3 for \$5.25; 12 for \$21.00.**

Cocorico

154—MA PERKINS. (Pat. No. 1143). A free blooming Floribunda of sparkling coral-pink. Outer petals have shades of red in the bud, and slight shades of gold are present in the early stages. When fully open it is unusually double and at its best with a predominant shade of shell-pink. Award winner in 1952-1953. **Each \$2.00; 3 for \$5.25; 12 for \$21.00.**

152—WORLD'S FAIR. (Pat. No. 362). Dark, almost blackish red flowers, pleasingly fragrant. The semi-double blossoms are produced from spring to fall. **Each \$1.50; 3 for \$3.90; 12 for \$15.60.**

150—GOLDILOCKS. (Pat. No. 672). A true golden yellow Floribunda. The large, double blossoms are fragrant and are borne in clusters from spring to fall. A vigorous grower with glossy foliage. The best yellow Floribunda. **Each \$1.50; 3 for \$3.90; 12 for \$15.60.**

Orange Triumph

LaFayette, Improved

BABY ROSE COLLECTION No. 822

One of each variety pictured on this
page. All 5 for \$5.50

145—ORANGE TRIUMPH (Polyantha). Small, double, high-centered blossoms of salmon-red with orange shadings. Free bloomer. One of the best for Midwest.

178—THE FAIRY (Polyantha). Constant, prolific bloomer with sprays of small, double, shell-pink blossoms on a bushy plant about 3 feet tall. Fine for low hedge or fence.

144—BABY IDEAL (Polyantha). Clusters of small, dark velvety crimson blooms produced constantly. Ideal for borders and foundation color.

179—MARGO KOSTER (Polyantha). Large clusters of small, globe-shaped, semi-double blossoms of rich shadings of orange and pink. The plant grows not over 18 inches high, so makes an excellent edging or low hedge.

142—FLORADORA (Floribunda). Glowing orange-scarlet blossoms in sprays of six to twelve. Tiny buds open to full double, camellia-like blooms. Grows 3 to 4 feet.

177—PERMANENT WAVE (Floribunda). Large, semi-double clusters of bright carmine-red. Edges of petals wavy. Glossy dark foliage.

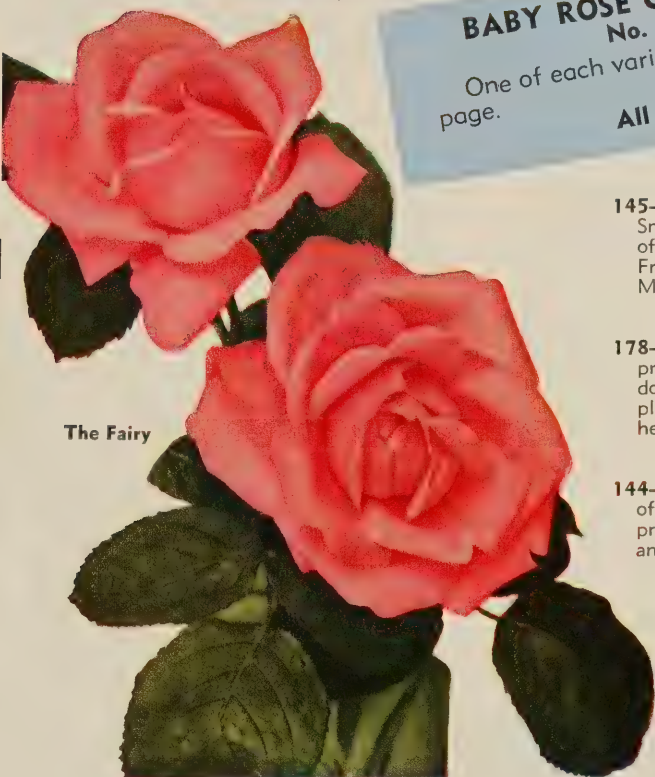

143—LAFAYETTE, IMPROVED (Floribunda). Semi-double blooms of glowing red suffused crimson. Slightly fragrant. It is a heavy bloomer and we consider it the best non-patent among Floribundas.

140—CHEERIO (Floribunda). Unusually heavy blooming pink Floribunda. Blossoms are large, semi-double, bright pink with a darker reverse. Extremely hardy.

180—ROSENELFE (Floribunda). Long, pointed buds open into medium size flowers of deep flesh-pink. Flowers are borne in clusters. Plant medium height.

Neosho HARDY HEDGES

— Beautiful Living Fences

TO GET A DENSE HEDGE AT BOTTOM
SET HEDGE SLIGHTLY LOWER THAN
PLANTS GREW IN NURSERY.

TO GET A STRAIGHT HEDGE DIG ONE
SIDE OF TRENCH STRAIGHT AND
PLACE PLANTS AGAINST THIS SIDE

A beautiful green wall that beautifies as it serves to make a barrier or a screen at very small initial cost and no maintenance except to prune to desired shape and height.

While all Privet is pruned heavily when planted, the 2-3 ft. grade with its heavier root system and more numerous canes will produce a neat, compact hedge the first year.

The hedge plants we offer are heavy, well branched, field-grown plants, which give an immediate effect and should not be confused with small, spindling, 2-year seedlings from beds.

Amur River Privet

Spirea Van Houttei

301—RED BARBERRY. A protective as well as ornamental hedge, as the small spines will keep out cats, dogs, and chickens. Makes an attractive hedge either trimmed or untrimmed. Perfectly hardy. Red berries and foliage in fall. Plant 18 to 24 inches apart.

	Per 10	Per 25	Per 100
12-18 in.	\$6.50	\$15.00	\$52.50

PRIVET HEDGES

Privet Hedges should be planted in a trench 1 ft. wide and 15-18 in. deep, setting plants 9-12 in. apart and planted deep enough that lower branches are partly covered with soil. They should be trimmed back within 4 or 5 inches of the ground to help develop more side branches and should be kept trimmed as they grow to develop thick base. A good hedge should be wider at the bottom than at the top and early trimming is the only way this can be accomplished.

302—CALIFORNIA PRIVET. Semi-evergreen with thick, dark green foliage. Not hardy north of latitude of Kansas City. Can be trimmed to any desired height. Plant 9-12 in. apart.

304—EVERGREEN PRIVET. (Amur River South). Will retain its foliage all winter here at Neosho in average winter. Fast grower, but can be kept trimmed to any height.

303—HARDY AMUR NORTH PRIVET. Hardest of all Privets, standing 20 below zero without damage. Can be trimmed to any height and makes a dense hedge.

312—MULTIFLORA ROSE. Conservation people recommend this as a living hedge for erosion control and wild life refuge. Has small thorns, white blossoms in June followed by red fruits which birds like. Grows 6-8 feet tall and about as wide. Plant 18 in. apart. Not suitable for small city lots.

Ra-Pid-Gro Fertilizer
See page 35

ARBOR - VITAE

Formal pressed leaf types of pyramidal, conical and globe shapes. The American type is hardy in the North, while the Chinese types withstand heat and drought, and are better adapted to the southern locations.

EXCELSA ARBOR-VITAE. An improved pyramidal form of Chinese Arbor-Vitae with finer pressed foliage which maintains its beautiful summer green attraction without discoloration during the winter. The hardiest of all the pyramidal varieties of Chinese Arbor-Vitae.

	Each
30-36 in.	\$4.25
3-4 ft.	5.00

BERCKMANN'S GOLDEN ARBOR-VITAE. A beautiful, dwarf, compact variety of golden color. Valuable for urns, small gardens, cemetery lots or brightening up foundation plantings. Grows about twice in height to width.

	Each		Each
15-18 in.	\$3.75	30-36 in.	\$6.00
18-24 in.	4.50	3-4 ft.	7.65
24-30 in.	5.20	4-5 ft.	8.95

BERCKMANN'S GLOBE ARBOR-VITAE. A more dwarf and compact form of Berckmann's Golden which grows in a round globe shape without shearing.

	Each
18-24 in.	\$4.65
24-30 in.	5.70

BONITA ARBOR-VITAE. Usually develops into a perfect globe-shaped plant, the spread equaling the height. The foliage is light green, and attractive. They are largely used for front line planting, in urns, vases, on either side of a step and in formal work where symmetry is desired.

	Each
15-18 in.	\$3.95
18-24 in.	4.50

AMERICAN PYRAMIDAL ARBOR-VITAE. Strikingly attractive, narrow at its base, and retaining its shape without shearing. The color is deep, rich green. Like all Arbor-Vitae, it is easy to transplant. For corners, in front of pillars, background of group plantings and in urns.

	Each
30-36 in.	\$4.80
3-4 ft.	6.00

Colorado Blue Spruce

SPRUCE and PINE

COLORADO SPRUCE. Broad, even pyramid with thick, stiff branches covered with heavy lustrous green foliage sometimes touched with silver. Makes a good specimen tree for the lawn.

	Each
18-24 in.	\$ 4.85
24-30 in.	5.85
30-36 in.	7.00
3-4 ft.	9.00

18-24 in.	\$11.50
24-30 in.	12.85
30-36 in.	15.00
36-42 in.	18.35
42-48 in.	21.95

ORIENTAL DWARF SPRUCE. Slow growing with glossy, very short needles. Can be used in locations where other types of Spruce grow too large. Maintains its lower branches.

	Each
18-24 in.	\$6.95
24-30 in.	9.00

WE DO NOT SHIP BALLED EVERGREENS

Unless full cash accompanies order. The plants will be sent transportation collect. Shipments will be made by rail or truck freight. Give your nearest rail or truck shipping point on order.

Scotch Pine

PINE

SCOTCH PINE. Fast growing tall tree of irregular shape. Gray-green foliage not so dense as that of the Austrian Pine. Reddish brown branches and trunk contrast in color with foliage. Good tree for screen planting or specimen use. Ultimate height 50 feet.

	Each
2-3 ft.	\$ 7.00
3-4 ft.	8.35
4-5 ft.	10.25

HEMLOCK

HEMLOCK (Tsuga Canadensis). Strong growing, beautifully shaped, graceful tree with rich green foliage. May be kept sheared to meet any desired shape and size. Its ability to grow in heavy shade makes it a very desirable tree for foundations, screens or specimen plantings.

	Each
3-3 1/2 ft.	\$ 9.00
3 1/2-4 ft.	11.35

CULTURAL DIRECTIONS

Plant at a depth shown at right. Water thoroughly when planting and again in one week. Water whenever dry during the first year. Use Ra-Pid-Gro when planting and three times first summer, wetting foliage with Ra-Pid-Gro solution first. Trim lightly to keep plant in good shape and cultivate to conserve moisture in soil.

BROADLEAF EVERGREENS

Abelia Grandiflora

ABELIA GRANDIFLORA. Bright glossy leaves with small trumpet-shaped blossoms, white with pink tinge. Blooms profusely all summer. Grows 3 to 4 feet tall.

	Each
18-24 in.	\$3.25
2-3 ft.	4.00

AZALEAS. See page 20.

BOXWOOD. Fine dwarf broad-leaf evergreen which can be used as specimen, for edging, or in tubs. Will do well in partial shade.

	Each
12-15 in.	\$3.85
15-18 in.	5.00

CHERRY LAUREL. Long, lustrous evergreen foliage. White flowers in late May followed by purple-black berries late in the summer. A rapid grower, but may be clipped easily to desired size. Will grow in full sun and hot locations.

	Each
2-3 ft.	\$3.00
3-4 ft.	3.95
4-5 ft.	5.00

PYRACANTHA LALANDI (Fire-thorn). A picturesque, upright, thorny shrub with Box-like evergreen foliage. Has attractive white flowers followed by an amazing quantity of fiery orange-red fruits, which last well into the winter.

	Each
18-24 in.	\$3.00
2-3 ft.	4.00
3-4 ft.	5.00

Neasha

BROADLEAF EVERGREENS

For Bright Winter Color

Ilex Rotundifolia

ILEX ROTUNDIFOLIA. Low, bushy, with glossy evergreen leaves. Oval shape; grows 6 feet high and wide. Fruit is black. Will stand shade.

	Each
12-15 in.	\$3.00
15-18 in.	3.95
18-24 in.	4.65
24-30 in.	5.65

ILEX CRENATA CONVEXA (Shrub Holly). More spreading than Rotundifolia. Dark, shiny green leaves are convex in shape, rather narrow. Black berries. Easily trimmed.

	Each
12-15 in.	\$3.00

EUONYMUS PATENS. Fine for foundation planting, holding foliage well into the winter. Large, deep green foliage with clusters of Bittersweet-like berries in the fall. Will stand shade.

	Each
18-24 in.	\$3.00
24-30 in.	3.60
30-36 in.	4.40

EUONYMUS PATENS (Small Leaf). More compact than regular Patens with smaller leaf.

	Each
18-24 in.	\$3.75
24-30 in.	5.00
30-36 in.	6.50

EUONYMUS RADICANS, UPRIGHT. One of the best dark green leaved evergreen shrubs. Holds its foliage throughout the winter. Grows in sun or shade. Beautiful as specimen or in foundation planting. Grows 3 to 3½ feet tall.

	Each
18-24 in.	\$3.95
2-2½ ft.	5.50

MAGNOLIA GRANDIFLORA. True Southern Magnolia. Large, glossy, dark green leaves which remain throughout the winter. Large, creamy white blooms in June, intensely fragrant. Not hardy north of Springfield, Missouri.

	Each
2-3 ft.	\$4.65
3-4 ft.	5.75
4-5 ft.	7.75

NANDINA. Fern-like branches grow horizontal on this semi-broadleaf evergreen shrub. Foliage is long and narrow, and colors a beautiful bright red in the fall, and often remains attractive until middle of March. Large clusters of bright red berries add beauty to the fall and winter effect. Grows 3-4 feet tall. Prefers full sun.

	Each
15-18 in.	\$2.75
18-24 in.	3.25

Euonymus Patens

Mahonia (Oregon Holly)

MAHONIA (Oregon Holly). Holly-like, shiny, deep green leaves which turn a maroon-red in fall and remain on all winter. Large, yellow blossoms in early spring are followed by blue berries the size, shape, and color of wild Grapes. Grows 4 to 5 feet tall. Stands light shade or sun.

	Each
15-18 in.	\$3.95
18-24 in.	4.80
24-30 in.	5.85
30-36 in.	7.50

Neasha QUALITY TREES for

Broadleaf Chinese Elm

333—BROAD LEAF CHINESE ELM

The fastest growing tree in America. Hardy, drought and disease resistant. A beautiful budded Elm discovered in our nursery row and from which we have propagated the past twenty years. Its leaves are large and dark green. The bark is smooth and branches are straight and strong. Will stand high wind, dry summers and cold winters, and will grow from 8 to 14 feet in one year. The demand for this tree is so great we have never been able to build up a surplus stock, so if you want some of these beautiful, permanent, quick-growing trees you should place your order at once, as our supply is limited. Best if pruned heavily at planting time. We offer them in the following sizes:

	Each	3 for
5- 6 ft.	\$2.75	\$ 7.75
6- 8 ft.	3.75	10.25
8-10 ft.	5.25	14.25

332—CHINESE ELM

One of the fastest growing shade trees, small leaves, hardy. Stands extreme drought better than most trees and will grow in poor soil. Stands heavy pruning.

	Each	3 for
4- 5 ft.	\$1.25	\$ 3.25
5- 6 ft.	1.75	4.95
6- 8 ft.	2.40	6.50
8-10 ft.	3.60	10.00
10-12 ft.	4.50	12.50

Crimson King Maple

WHITE BIRCH

A small tree with white bark after tree matures. The green foliage turns a pleasing yellow in the fall. Grows 25 to 30 feet tall. We offer this in clumps with 2 or 3 distinct trunks, or as a single trunk tree.

343—Straight Stems.

	Each
4-5 ft.	\$2.40
5-6 ft.	2.95

344—Clumps.

	Each
3-4 ft.	\$2.95

Sugar Maple

THE EVER-POPULAR MAPLES

336—NORWAY MAPLE

Similar to Sugar Maple, but lower-headed and foliage colors mostly yellow in fall.

	Each
5- 6 ft.	\$3.60
6- 8 ft.	5.40
8-10 ft.	7.95

337—SCHWEDLER'S MAPLE

Glorious colored foliage in spring w'th shades of scarlet, red and purple. During summer months leaves turn deep ruddy green.

	Each
5-6 ft. whips	\$4.00

349—CRIMSON KING MAPLE

(Pat. No. 735)

New red leaf, truly the king of all Maple trees. A maroon or red-leaved tree which maintains its color throughout the summer. It glitters in the sun. Maturity height 50 feet. Not branched.

	Each
4-5 ft.	\$4.50
5-6 ft.	5.50

347—RUBRUM MAPLE (Scarlet)

Brilliant red fall foliage. This tree is of faster growth than Sugar Maple. Has bright red blossoms early in spring. Will grow in low, wet ground where many trees fail. Grows 80 to 100 feet tall.

	Each
5-6 ft.	\$3.25
6-8 ft.	4.50

334—SILVER MAPLE

Often called Soft Maple. Fast growing with small green leaves, silver underneath. Colors yellow in fall. Grows 80 to 100 feet tall.

	Each
5- 6 ft.	\$1.95
6- 8 ft.	2.95
8-10 ft.	4.25

335—SUGAR MAPLE

Commonly known as Hard Maple, it is one of the most desirable trees grown. A straight, dense grower with heavy foliage which colors brilliantly in the fall. Slow in growth, but is not damaged by wind or sleet like many fast growing trees. Everyone should have at least one Sugar Maple on their grounds. We have an excellent supply of thrifty, straight specimen trees to offer at attractive prices.

	Each	2 for
5- 6 ft.	\$3.25	\$ 6.00
6- 8 ft.	4.50	8.50
8-10 ft.	6.75	12.50

Only \$2.10

2 each of this group

Only \$4.00

PLANTING AND CULTURAL METHODS FOR PHLOX

The soil should be well drained, deeply spaded, and enriched with a good plant food. Planting may be done in fall or spring in a sunny border. Set the plants 10 inches apart. Lift and divide every three or four years or they will become crowded, resulting in poor, small flowers. Never let plants go to seed, never water overhead, always keep blooms and foliage dry, letting hose run slowly on the ground. This method of watering prevents mildew.

CREeping PHLOX

Early spring flowering perennial with moss-like evergreen foliage. Completely covered in early spring with masses of bloom. We offer both red and pink.

NURSE YOUR GARDEN!

Plant Health is a Must for
Strong Vigorous Plants

RA-PID-GRO

For Better Flowers, Better Lawn, Better
Shrubs and Trees, Better Gardens

Here is a product that we would like to have everybody use. When planting, you simply put 4 level teaspoonfuls of RA-PID-GRO in 1 gallon of water (8 level teaspoonfuls in 2 gallons of water, etc.) Soak the roots of Roses for 3 minutes. They will start much more quickly and bloom much sooner. Soak roots of shrubs for 3 minutes, roots of trees for 4 minutes; just dip Perennial roots for a second or two. Strawberries are dipped for just a second or two. Raspberry, Blackberry, Boysenberry, Grapes, Gooseberries and Currants are dipped for 1 minute. After dipping, plant right away, keeping all roots protected from sun and wind. When through planting, pour the solution around the newly planted stock. Then every 2 or 3 weeks, use RA-PID-GRO and you will get the very best results. One pound makes 22 gallons of quick-acting fertilizer.

1 lb.	\$1.25
2 lbs.	2.35
5 lbs.	4.50

INSTANT VIGORO

A complete water soluble concentrated powder designed for use as a liquid plant food for both foliage and root feeding.

Asparagus

RHUBARB

You can have fresh fruit for the table early in the spring by planting Rhubarb

454—CANADA RED. The best red Rhubarb. Grown from divisions, which guarantee it true to name. Giant size stalks, tender and sweet, requiring less sugar. Stays tender into middle or summer.

	Each	3 for	6 for
Large Divisions\$0.90	\$2.50	\$3.95

453—VICTORIA. The standard Rhubarb for years. A large, pink stalked variety; early, tender and mild, but grown from seed, not divisions, so that we can offer them at a much lower price, but cannot guarantee true to name.

	3 for	6 for	12 for
Small\$0.50	\$0.85	\$1.45
Medium75	1.25	2.15
Large95	1.70	2.90

CURRANTS—GOOSEBERRIES

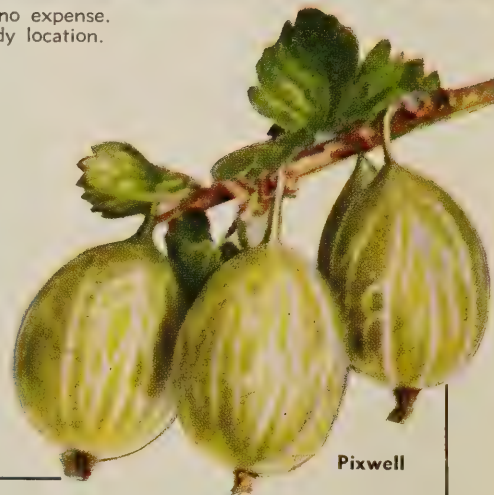

You can just as well have them fresh from your garden at no expense. Just the trouble of picking them. They both prefer a cool, shady location.

Why offer a dozen varieties of Currants? We have tried them all in our test garden and have picked and offer you the best.

402—RED LAKE CURRANT. A new red Currant of superior quality and flavor, with larger berries. Heavy yielding and very hardy. Each 65c; 5 for \$2.75; 10 for \$5.00.

400—PIXWELL GOOSEBERRY. Introduced by the U. S. Department of Agriculture with the same high quality and favorable characteristics of Oregon Champion, but with the distinct and favorable advantage that it stands the hot, dry weather so much better and succeeds 500 miles further south and west. Each 70c; 5 for \$3.00; 10 for \$5.50.

401—OREGON CHAMPION. Oregon Champion has been the top ranking Gooseberry for many years, being extra large, fine quality, pale transparent, yellowish white, bringing highest prices on the markets. Each 70c; 5 for \$3.00; 10 for \$5.50.

TRADE MARK

Everbearing. New, wonderful everbearing variety. Big, firm, wedge-shaped berries of unusual sweetness and rich flavor; color a deep red to the core. A good keeper and shipper. The spring crop starts later than most varieties and you will get a wonderful crop of these large, luscious berries from August until frost with favorable weather. One acre of Red Rich plants produced 4,000 quarts of fruit last fall. The best everbearer to date. Be sure to plant some. Our supply is limited.

FRESH FROM YOUR OWN GARDEN

NEW ROBINSON

✓ 425

A scarlet beauty. Sweet, solid berries, long fruiting period, heavy producer. One of the fonciest and most attractive Strawberries ever introduced. Uniform, extra large, scarlet berries are solid red all the way through, with a delicious sweet flavor. A thrifty plant maker with heavy, light green foliage. Ripens just after Blakemore and fruits over a long period, holding its large size to the last picking. **Prices below.**

ARMORE

✓ 426

Just think—a Missouri University cross combining the better qualities of Aroma and Blakemore. Aroma quality and size and Blakemore plant making productiveness and drought resistance. A grower at Sarcoxie, Missouri, produced 450 crates per acre and has set his goal for 600 crates per acre.

Juicy Pears!

Bartlett

- ✓ **221—SECKEL.** Because of its sweetness it is called the Sugar Pear. It is a honey in more ways than one. Everyone should have one or more. Though small in size it's delicious in flavor, wonderful for preserves and conserves.
- ✓ **215—BARTLETT.** Known and grown coast to coast and fully deserving of its popularity, both for home and commercial planting. Fine quality. White juicy meat.
- ✓ **219—CORELESS.** Can you imagine a Pear without seeds or core to bother with? Well, that's Edmonds seedless. All juicy, white, sweet, firm, meat that ripens 10 days ahead of Bartlett. What more can we add excepting it is a heavy producer?
- ✓ **217—KIEFFER.** Everyone knows Kieffer and its characteristics. A large, coarse grained winter Pear that succeeds farther South than the other varieties.
- ✓ **218—LINCOLN.** Well, just read the description of Bartlett and that pretty nearly tells the story of Lincoln, although it ripens a little earlier, succeeds farther south, though not so tender and juicy so that it does not bruise easily.
- ✓ **216—DOUGLAS.** More resistant to blight than any of the other varieties. Ripens in the fall after Bartlett and before Kieffer. More of the Bartlett type—but not as high quality. One of its outstanding characteristics is it often blooms a second time and bears a crop if the early bloom gets killed by spring frosts.

- ✓ **415—McDONALD.** Very early. Large, oblong, very good quality; drought resistant; vigorous grower. Plant in rows 8 to 10 feet apart. The vines trail the first season like Dewberry, but grow upright the next year. We will include with each 25 McDonald plants 5 plants FREE of Early Harvest for cross pollination. Plant every fourth or fifth plant. Best Blackberry for size, quality, and production.
- ✓ **416—EARLY HARVEST.** Glossy jet-black berries of medium size and excellent quality. Heavy bearer and very hardy. Ripens early, ahead of dry weather.
- ✓ **417—ELDORADO.** The hardiest, best quality Blackberry. Thrives on poor soil. Large, firm, sweet flavored berries, almost coreless. Ripens over a long period. A heavy regular bearer.

436—LATHAM. Red Raspberry. A superior late red Raspberry, which does well in all sections of the country. Adaptable to all sorts of soil conditions, climates, and sections. Cold weather has no effect on Latham as it originated in Minnesota. A great shipping and canning berry because of its wonderful keeping qualities. Produces fruit of large size, fine color, and good flavor.

5 for	\$1.25	50 for	\$ 7.75
10 for	2.25	100 for	14.50
25 for	4.50	200 for	26.00

434—INDIAN SUMMER

Same price as Latham

Everbearing Red Raspberry. Many are planting Indian Summer as a one-crop variety because of its vigor and large size, fine flavored berries. Berries are much larger than other everbearing types and of excellent quality. The summer crop ripens very early; the autumn crop from September until frost.

432—MORRISON. Black Raspberry. A new improved introduction with all Cumberland fine qualities, but of larger size, a little later ripening, but best of all, of healthy, vigorous growth that stands hot, dry weather exceptionally well.

275—**RED ROME**. Blooms later than other Apples, which is a great advantage in escaping spring frosts. A more beautiful, solid red Apple was never grown. A vigorous grower, prolific bearer. It starts to bear at an early age. Ripens October 1st. A very profitable commercial Apple.

DELICIOUS APPLE SPECIAL

No. 840

Here's a special of the most popular varieties, both yellow and red.

1 Dark Red Delicious	4 trees, 2-3 ft.	\$2.75
1 Yellow Delicious		
1 Jonathan		
1 Grimes Golden	4 trees, 4-6 ft.	4.25

271—**YELLOW DELICIOUS**. Best yellow Apple on the market. Large, beautiful golden yellow Apple. Firm flesh and stores well until late winter. Tree is vigorous grower and begins bearing at a very early age.

288—**VIRGINIA CRAB APPLE**. One of the best jelly Crab Apples. Medium size, golden yellow. A late bloomer and prolific bearer, seldom failing to have a crop. Will produce crops with as little attention as any Crab Apple that we know.

289—**HIBERNAL**. One of the hardiest Apple varieties. Tree vigorous, very spreading, adapted for top-working of most commercial varieties. Fruit is large, flat, greenish yellow with splashes of red. Good cooker.

273—**DARK RED JONATHAN**. When they grow them any better, Dark Red Jonathan will be the parent. The best and most widely planted all-purpose Apple grown. No matter what the peddler is selling, if they are red they all call them Jonathan. Dark Red Jonathan is a sport that attains a solid dark red color two weeks earlier and hence brings top prices on every market.

279—**ANOKA** (Old Folks Apple). So called because it bears after the second year. A large, striped red Apple of good quality which continues ripening over a full month in August. Hardy as an Oak.

281—**SUMMER CHAMPION**. A large, attractive red and fine quality late summer Apple which fills a vacancy in every home orchard and finds a ready market at top prices.

314—**CRAB, DOLGO**. Rather open, vigorous habit with dense foliage. Large, fragrant white flowers followed in late summer with bright red Crab Apples which make excellent jelly.

282—**DARK RED DUCHESS**. One of the most profitable summer Apples. Bears exceedingly young and extra heavy. A more solid red and richer color than regular Duchess.

272—**GRIMES GOLDEN**. A favorite since grandfather can remember. Rich golden color, fine flavor and aroma, an ideal dessert Apple, and an equally fine cooker. Easy to grow, hardy, and prolific bearer.

277—**TURLEY**. Too much cannot be said of this wonderful Apple of the Stayman Winesap type. We have seen a plate of Turley with the Grand Sweepstakes prize at the National Apple Show, judged by color, shape, perfectness, and uniformity. Exceptionally large, solid red, heavy producer. Ripens September 25 to October 10.

285—**WEALTHY** (Late Summer). A most dependable and widely planted late summer Apple. Bright red striped; medium to large size; ripens over a long season. Very good quality. Very hardy. Bears young.

286—**RED WILLOW TWIG**. An improved red sport of Willow Twig which has long been a favorite with the commercial growers as a large red Apple that keeps well in storage until May.

283—**WINESAP, IMPROVED**. An improved strain. A good shipper and an exceptionally good keeper in ordinary and cold storage. Splendid bright red, indistinctly striped dark purplish red; good quality. A much larger Apple of the same wonderful qualities as Old Fashioned Winesap. Medium size, hardy. Heavy regular bearer.

287—**RED YORK**. New improved York Imperial inheriting all good qualities of the old variety. Heavy bearer, easy to handle and stands late storage. Fine commercial variety. Has 100% color early in season, making a beautiful appearance while still firm.

278—**YELLOW TRANSPARENT**. Most popular early summer Apple. Medium size, clear yellow, excellent for cooking. Tree is hardy, upright, and is a heavy bearer.

274—**LODI**. A greatly improved Yellow Transparent. Much larger, a rich yellow, firm, thick-skinned Apple that ships well. Ripens first week in July and reaches market when they are anxious for early Apples. Tree is spreading, not upright like a Pear tree, as so many early Apples are.

284—**WHETSTONE** (Winter Jonathan). A new cross combining the qualities of Jonathan, Delicious, and Ben Davis. A large, beautiful dark red winter Apple that will hang on the tree till Thanksgiving and keep until spring. A heavy producer, 64 to 80 Apples will fill a bushel.

NEW! Outstanding Varieties

- **267—NEWDAY.** (Freestone). Yellow freestone of good quality. It resembles Elberta in color, shape and size. Ripens a week after Golden Jubilee and is more firm than Golden Jubilee.
- **250—LORING.** (Freestone). Resembles Golden Jubilee in color and shape, but is firmer and does not soften at the tip. Large, yellow-fleshed freestone with bright red color over yellow under color. Ripens about two weeks ahead of Elberta.
- **262—DIXIGEM.** Ripens several days ahead of Golden Jubilee and about with Red Haven. Fruit is medium size and a bright attractive red blush covers about half the surface. Flesh is yellow with fine texture and excellent flavor. Vigorous and productive.

We offer stock grown from buds taken from true-to-name trees of known parentage which have a reputation for bearing young and producing abundant crops of large fruit.

- **252—CHAMPION.** (Freestone). A peculiar honey sweetness makes it ideal for home use and local market. Ripens August 1st. Large white Peach.
- **253—ELBERTA.** More popular and widely planted than any other Peach. Tree is a heavy producer of uniform, high quality fruit. Ripens August 10th.
- **257—GOLDEN JUBILEE.** (Freestone). A beautiful yellow freestone Peach ripening 25 days ahead of Elberta, about July 15th. Good size and quality. Plant Golden Jubilee this year and you will have these hardy freestone Peaches bearing for you in two or three years.

Golden
Jubilee

Gage Elberta

- ✓ **255—GAGE ELBERTA.** (Freestone). Mr. Gage over in Illinois discovered this tree in his large Elberta orchard and found over a period of years that it made him more money than any other tree in his orchard. It was redder, larger, more round than regular Elberta, ripened a few days earlier and hit the market just right to bring top prices. We'll let you be the judge as to whether it will be a valuable addition to your planting.

ELBERTA PEACH SPECIAL

No. 845

The most widely planted and popular variety of Peach to give you fresh fruit from July through August. July Elberta ripens in mid-July, Elberta in midseason, and Gage Elberta follows regular Elberta 4 or 5 days.

1 July Elberta	1 Gage Elberta	1 Elberta
3-4 ft., 3 for \$2.25	2-3 ft., 3 for \$1.60	

- ✓ **254—EARLY ELBERTA.** (Freestone). A smooth-skinned, better flavored Elberta without the bitter pit. Ripens a week ahead of Elberta and gets on the market while the price is still favorable.
- ✓ **258—J. H. HALE.** (Freestone). The largest of the high quality commercial Peaches. Ripens August 5th, just ahead of Elberta. The color is a beautiful yellow and it is the preferred Peach on most every market during its season. Quality unsurpassable.
- ✓ **251—BELLE OF GEORGIA.** (Freestone). From coast to coast it has been and is the favorite white Peach. Unusually large, creamy white, red blushed, and wonderful quality. Hardy, vigorous, productive, regular bearer. Ripens August 1st.

Belle of Georgia

Hale-Haven

- ✓ **259—HALE-HAVEN.** (Freestone). A magnificent cross between the wonderful quality of J. H. Hale and the hardiness of South Haven. Wonderful size and color, and shipping qualities. Hardy in bud and vigorous tree. A profit making variety you cannot afford to overlook. Ripens August 1st.
- ✓ **260—RED HAVEN.** (Freestone). A smooth-skinned, almost fuzzless, early yellow freestone of fine quality. Ripens uniformly, early in July. Tree is vigorous and bears so heavily fruit should be thinned to increase size.
- ✓ **263—INDIAN BLOOD.** (Clingstone). Late. An old-fashioned favorite of fine flavor. Flesh is blood-red color. Wonderful for canning, pickling, and preserving.
- ✓ **264—RED BIRD.** (Clingstone). An unusually large, early commercial variety. Very firm and ships well. Creamy white covered with bright red. Ripens July 1st.
- ✓ **265—TULIP.** (Semi-free). The best extra early, semi-freestone grown at the Missouri Fruit Experiment Station. Ripens six weeks ahead of Elberta. Fruit medium to large, nearly round with good color before picking time. Short fuzz, fine texture and excellent flavor. Firm, yellow flesh, stands shipping well.
- ✓ **261—CHINESE CLING.** A huge, round white Peach, with a juicy, yet rather firm flesh. Its flavor is unique and far surpasses all other white Peaches for canning or freezing. No home orchard should be without one.
- ✓ **256—JULY ELBERTA.** (Freestone). The earliest of the Elbertas, reaches market early to obtain highest prices. Ripens about July 5th. A rich golden yellow freestone of delicious flavor. A heavy producer, wonderful shipper.

July Elberta

Neasha CHOICE PLUMS

236—BURBANK. The name itself is sufficient evidence that it is outstanding. A large, cherry-red, solid-meated Plum of rich flavor which bears well if planted along with another variety to cross pollinize.

238—MUNSON. A golden yellow of excellent quality which ripens early—three weeks ahead of America. Bears abundantly.

PLUM PRICES

	Each	5 Rate Each	10 Rate Each	25 Rate Each
9/16 in.	\$1.85	\$1.70	\$1.55	\$1.35
7/16 in.	1.45	1.30	1.15	1.00
5/16 in.	1.10	1.00	.90	.80

241—SAPA. Can you imagine Plums the first or second year? That's what you can be assured with Sapa. Juicy purplish flesh of good quality ripening in July. Bears every year.

239 — PRESIDENT. (Freestone). Nearly as large as an apple. An immense purplish black, firm plum of wonderful quality which you will enjoy eating fresh from the tree. Plant a Stanley with it for pollination.

242—STANLEY PRUNE. (Freestone). The best of the Prunes because the tree is so sturdy and vigorous and thrives where other Prunes fail. Begins bearing second year and produces large, beautiful sweet golden flesh, purplish blue freestone Prunes delightful to eat fresh from the tree.

235—AMERICA. Hangs as thick on the limbs as they can stick. A rich flavor, good size yellow plum with red cheek. Wonderful for jellies, preserves, butter, or conserves.

240—OZARK PREMIER.

This outstanding cross between Burbank and Methley is an extra large bright red, delicious Plum which ripens August 1st. Bears heavily and should grace every planting.

No. 854—TASTY PLUM SPECIAL

Fine varieties that will supply Plums for weeks.

GOVERNMENT INSPECTED TREES

Federal and State officials have thoroughly inspected our farms and certified our nursery stock free from injurious pests and plant diseases. You may order from us and be certain of clean, healthy trees, shrubs and plants.

APRICOT and NECTARINE

	Each	5 Rate Each	10 Rate Each	25 Rate Each
9/16 in.	\$1.85	\$1.70	\$1.55	\$1.35
7/16 in.	1.45	1.30	1.15	1.00
5/16 in.	1.10	1.00	.90	.80

247—NECTARINE, SURECROP. So named because of its unusual hardness against spring frost. Fruit is half and half, with skin like a Plum, seed like a Peach, and meat half way between. Freestone, large beautiful red. Bears often the second year.

246—IMPROVED SUPERB APRICOT (Scheihing). An orchardist named Scheihing at Guthrie, Oklahoma, had a particular Superb Apricot tree that bore abundant crops for seven successive years, and you must admit that is practically unheard of, since Apricots bloom so early they often get caught by spring frosts. The fruit was larger and juicier than regular Superb. We secured buds from this tree and have perpetuated this wonderful Improved (Scheihing) Superb Apricot to offer you.

VIRUS-FREE CHERRY

Eliminate cherry virus in your new orchard by planting Neosho certified trees. Our seedling understock is propagated from trees indexed virus free and our budwood is secured from trees "certified" virus free by the Missouri Agricultural Experiment Station. There is no better assurance of obtaining strong, sure to live trees than getting these certified trees grown in Ozark silt loam.

✓ **201—MONTMORENCY.** The favorite of all sour Cherries for over a century. There are more Montmorency Cherries in the United States than all of the rest of the Cherries combined. Fruit is firm, round, glowing red. Ideal for pies, cobblers, or canning.

SWEET CHERRY PRICES

	Each	5 Rate Each	10 Rate Each	25 Rate Each
11/16 in.	\$2.00	\$1.90	\$1.75	
9/16 in.	1.75	1.65	1.50	1.35
7/16 in.	1.50	1.40	1.35	1.20
5/16 in.	1.25	1.15	1.05	.95

SOUR CHERRIES

Keep Cherries sprayed with Actidione at least three times to hold the foliage on the tree. The result is more luscious fruit, more abundant fruit, and plenty of new growth for the next year's crop.

✓ **203—METEOR.** A brilliant new pie Cherry. Fruit is a clear light red; the skin is thin and tender. Flesh is pleasant and mildly acid and quality is very good. Fruit is large and tree is a strong, vigorous grower. Ripens about midseason.

SOUR CHERRY PRICES

	Each	5 Rate Each	10 Rate Each	25 Rate Each
11/16 in.	\$2.00	\$1.80	\$1.60	\$1.40
9/16 in.	1.60	1.40	1.20	1.00

1½-2 ft.90	.80	.70	.60

✓ **200—EARLY RICHMOND.** Lengthen your season by planting some Early Richmond too. It is the best of the early sour Cherries. Ripens a week ahead of Montmorency.

SWEET CHERRIES

Never plant a sweet Cherry by itself. It needs company. Plant Deacon or Black Tartarian to pollinize other varieties and make them bear heavily.

✓ **205—BING.** A large, luscious, firm, deep red, heart-shaped sweet Cherry of delicious flavor. Midseason. Has no superior for all purposes.

✓ **207—LAMBERT.** Bing all over again in quality and desirability, but ripens a week to ten days later and is a brighter red.

✓ **206—BLACK TARTARIAN.** A very productive early sweet Cherry of good quality which stands the dry, hot weather in the Middle West better than all others.

✓ **209—NAPOLEON (Royal Ann).** Like Montmorency, it has been a favorite for a century of the sweet Cherry family. Large, delicious, sweet, heart-shaped, with creamy yellow background and pink cheek.

✓ **204—DEACON.** A sweet Cherry similar in size, color, and quality to Black Tartarian, but superior in texture and shipping qualities. Excels all others as a pollinizer to make other sweet Cherries bear profusely.

✓ **210—SENECA.** Large, black sweet Cherry with unusually good flavor. Ripens with Strawberries. Tree is large, vigorous grower, heavy producer. One of the best of the new sweet Cherries for Midwest.

CHOICE FRUIT TREES - Your Own Back-yard Orchard!

DWARF APPLE TREES

Pretty and Practical—that's how we describe dwarf Apple trees. They are decorative in the spring when full of bloom—**BEAR FULL SIZE FRUIT** in great abundance. Perfect for the small garden, since you can plant them 10 to 12 feet apart. Our dwarf trees start producing Apples after the second year.

Budded on Famous Malling Root Stock to assure a permanently dwarfed tree, they reach a maximum height of ten feet at maturity. Plant two or more of the following varieties to allow cross pollination.

225—Dark Red Jonathan
226—Red Delicious

227—Lodi
228—Yellow Delicious

3-4 ft.	Each	4 for
4-5 ft.	\$2.50	\$ 8.50
	3.00	10.75

Dwarf Apple Tree

5-in-1 Apple (Not Dwarf)

Cat. No. 290

One Tree Makes An Apple Orchard. Space for one full size tree is all you need to enjoy the varieties you would normally get from five. You have Apples growing in your own yard all summer long. Some early, some midseason, some late—all crisp, juicy, wonderful. Five of the finest varieties available grafted on one tree: Grimes Golden, Jonathan, Red Delicious, Dark Red Stayman, Yellow Transparent. Plant now, plan for Apples next year.

Each \$3.25; 2 for \$6.00

DELCON SEMI-DWARF APPLE

Produces Heavy Crops At Early Age

291—Wonderful tasting fruit with a flavor that is a cross between Delicious and Jonathan—many like it better than either one. Color is medium dark red with yellow background. Has Delicious knobs. Ripens September 15th in south Missouri. Taste the difference.

Delcon Semi-Dwarf Apple

	Each	2 for
2-3 ft.	\$2.00	\$3.50
3-4 ft.	2.50	4.25
4-5 ft.	3.00	5.25

NORTH STAR

A new dwarf Cherry. It is a wonderful pie Cherry. Bears after the second year, and the tree is unusually hardy. Our strain is propagated from virus-free trees.
